About Us

Clinic Advisory Board

## Welcome

Welcome to Lifeclinic.com, an in-depth resource for information about prevalent health conditions and an on-line service to track your health over time. Tracking your vital signs on-line can provide a simple and convenient way to help you and your physician better manage your health condition. And the information, resources and tools provided within Lifeclinic.com will allow you to take a more active role in managing your medical conditions and healthcare.

## Watch Us Grow

Watch us grow. Beginning with high blood pressure, Lifeclinic.com will provide comprehensive information to help you manage your health condition. Stay tuned for additional topics of interest.

All use of the Lifeclinic.com site is subject to the terms of the Lifeclinic.com End User Agreement. Your use of the Lifeclinic.com site signifies your agreement to these terms and conditions, including any changes that Lifeclinic.com may post from time to time at its discretion.

### TEST IN PROGRESS

The cuff is now being inflated. Be still and quiet during the test. Your results will appear when the test is complete.

Systolic: is the pressure during your heartbeats.

Diastolic: is the pressure between your heartbeats.

Use of the Lifeclinic Kiosk is not a substitute for a physician. Only a physician is qualified to interpret the significance of blood pressure measurements. Self diagnosis or self adjustment of medication is dangerous.
